

Smart resaw for superior products

Comact's new ResawExpert

Introducing Comact's AI-powered linear ResawExpert with vision—where precision, efficiency, and innovation redefine hardwood processing and specialty products.

Our revolutionary technology intelligently maximizes yield and minimizes waste, ensuring every inch of raw material is utilized efficiently.

Comact's leading AI-powered optimization applied to resaw features:

- Independent optimization and grading of all four faces of the product to maximize its value
- End cameras to detect heartwood
- Rotation validation scanner
- Optimization by unit of clear wood, NHLA cutting grades or custom grades
- Quick and easy installation on an existing line

The new Comact ResawExpert optimizer can be installed during ongoing operations and activated once tuning is completed!
