Blade

DISPOSABLE KNIFE

A high-performance cutting tool system

Blade is our high-performance disposable knife product line. Manufactured using advanced processes, Blade products deliver consistent quality, precision, and reliability in demanding mill environments.

HIGHLIGHTS

- Fast and accurate blade positioning through a unique clamping design
- High-quality surface finish supporting optimal grading and board recovery
- Durable edges
- Reduced cleaning time of contact surfaces
- Reduced operating costs
- Excellent abrasion and impact resistance
- Optimized steel composition and ease of maintenance

WHY CHOOSE BLADE AND COMACT CUTTING SOLUTIONS

- 24/7 responsive technical support
- Dedicated representative available on-site
- Proven expertise in cutting applications
- Advanced manufacturing processes ensuring product consistency and uniformity

CURRENTLY IN OPERATION

More than 200 chip heads
installed and operating

As an OEM, we design and manufacture the equipment our knives are used in. We understand both the cutting tools and the machines behind them, allowing us to quickly identify root causes and help mills solve problems with practical, effective solutions.

Our parts and service team is always available to assist you.
