

CUTTING SOLUTIONS

SMITH SAWMILL SERVICE

Your trusted partner in cutting solutions and on-site services

Smith Sawmill Service provides comprehensive cutting solutions, expert support, and on-site services designed to keep sawmills running at peak performance. Whether you need a single replacement blade or a complete maintenance program, we're here to help.

CIRCULAR SAWS

From primary breakdown to trimming, our extensive selection of circular saws meets the performance demands of modern sawmills. Each saw is engineered for durability, accuracy, and optimized yield.

Applications:

- **Merchandiser saws** – Available in 60", 72", 84", and 92", tailored for volume and toughness
- **Guided saws** – Engineered for precision cutting and performance in high-speed production lines
- **Edger saws** – Designed for clean, consistent edging in dimensional lumber production
- **Trim saws** – High-speed, wear-resistant options for trimming lines
- **Splitter saws** – Reliable and efficient separation across multiple grades or sizes

SAWS AS A SERVICE

Take the guesswork out of saw maintenance. With our full-service blade management program, we handle quality repair, sharpening, tracking, and logistics so your team can stay focused on production.

- Comprehensive service for Stellite and carbide guided saws, trim saws, strobe saws, and large-diameter saws
- Blade tracking system with engraving and full repair history
- Pickup and delivery across 11 states
- Includes on-site expert support and operational training

WHY CHOOSE SMITH SAWMILL SERVICE?

We are more than a supplier; we are a cutting solution partner with:

- Full-service support from procurement to maintenance
- Nationwide delivery and pickup network
- A team of saw filing experts, trainers, and service technicians
- Deep integration with Comact's optimization and cutting-edge systems

Whether you're redesigning one saw or managing a fleet of mills, our team is ready to help you maximize every cut.

TRUSTED BY LEADING MILLS ACROSS NORTH AMERICA

With decades of hands-on sawmill experience and over three billion board feet supported annually, Smith Sawmill Service is the go-to partner for mills that demand reliability, performance, and support that goes beyond the blade.

“

Smith Sawmill Service has been an invaluable asset to our southern operations. Their commitment to delivering a quality product and exceptional customer care is unparalleled. On every occasion that we have encountered issues, they have responded promptly, helped identify the root cause, and partnered in providing effective resolutions. Smith Sawmill Service has consistently gone above and beyond for our operations. This level of dedication to customer service is invaluable, ensuring we receive a consistent product that we can always depend on to perform.

– Dustin M. Wood, Director of Southern Operations, Biewer Lumber
